

IPT-DS1

Party-shot™ automatic photographer

The Party-shot™ automatic photographer works together with your DSC-TX1 or DSC-WX1 camera's Face Detection and Smile Shutter™ technologies to automatically take photos at the event. Intelligent composition uses the rule of thirds to compose great shots.

Bullets

- Automatically takes pictures at your event
- Tilts and shifts (+ 24 to -21 degrees), following and taking subjects' pictures
- Employs Face Detection and Smile Shutter™ modes
- Uses the rule of thirds to compose beautiful shots
- Compatible with both DSC-TX1 and DSC-WX1 cameras
- Powered by two AA alkaline batteries or an AC adaptor (sold separately)
- Available in silver

Features

Automatic

Snap pictures at an event while rotating and tilting - automatically.

Intelligent

Intelligently searches and tilts to follow subjects and take photos.

Dual Shooting Modes

Smile Shutter™ technology automatically detects smiles and Face Detection technology recognizes faces to take photos at the right moment.

Composition

Intelligent composition uses the rule of thirds to compose great shots.

Customize

By pressing the Menu button, you can set the Rotation Angle, Shooting Frequency, and Flash.

Flexible Power

Power up your Party-shot™ with either two AA alkaline batteries, or with the AC adaptor (AC-LS5 or AC-S5K), all sold separately.
